### **General Information**

General Information section explains in general terms the <u>Health Facility Store</u> application overview and the sections of the user manual.

#### **Application Overview**

**"DPDMIS Health Facility Store**" – revolutionizing medicine supply chain management. With a userfriendly interface and powerful features, it simplifies the complexities of overseeing your supply chain. Instantly indents to drug warehouses, receipts, consumptions, manage stocks, and optimize inventory from the palm of your hand. Enhance collaboration and stay ahead of the curve with Health Facility Store - your agile supply chain companion.

App has been developed by IT-Cell, Chhattisgarh Medical Services Corporation under the aegis of Health & Family Welfare Department of Chhattisgarh

#### Organization of the Manual

The user manual consists of the following four sections

- 1. General information
- 2. System Summary
- 3. How to download the application
- 4. Registered User Privileges

General Information section explains in general terms the DPDMIS Health Facility Store applicationoverview and the sections of the user manual.

**System Summary** section explains about the hardware and software requirements for accessing DPDMIS Health Facility Store application and user access levels.

**How to download the application** section explains the options available to download the DPDMIS Health Facility Store Android application on your mobile.

**Using the Application** section provides a detailed description of the functionalities DPDMIS Health Facility Store application

### **System Summary**

System Summary section explains about the hardware and software requirements for accessing DPDMIS Health Facility Store application and user access levels.

![](_page_3_Picture_0.jpeg)

![](_page_3_Picture_2.jpeg)

#### Hardware and Software Requirements

Requires a smart phone with Android or IOS operating system (OS)

- The minimum Android version should be 10.0 and above up to avail all the features in the application.
- The minimum IOS version should be 17.0.3 and above up to avail all the features in the application.

To download and use the functionalities of <u>Health Facility Store</u> mobile app, you require an Internet connection in your mobile.

#### **Registered User**

There are approx. 2500 registered users as a Health Facility in DPDMIS portal in which medicines are supplied by CGMSCL Drug Warehouses such as

- Medical College/ Hospitals.
- Chief Medical Officer
- District Hospitals
- Community Health Centre (CHC)
- Primary Health Centre (PHC)
- Urban Primary Health Centre (UPHC)
- Health & Wellness Centre
- AYUSH Hospitals
- District Ayurved Officer
- Poly Clinics.
- AYUSH Wings
- AYUSH Dispensary
- Homeopathy/Ayurved Centre

Note: User id & password for login will be same as Facility Online web application.

![](_page_4_Picture_0.jpeg)

![](_page_4_Picture_2.jpeg)

## How to download the application

Health Facility Store application can be downloaded through the following ways

- Google Play Store
- Facility Online web Portal (<u>http://140.238.246.250/facOnline/index/index.aspx</u>)

#### **Google Play Store**

#### 1. अपने मोबाईल फोन के Play Store पर जाएँ और Health Facility Store App Install करें |

Click on the Google Play text at the top and enter the text "Health Facility Store "in the search bar. Click on the Health Facility Store application icon from the search result. Now below page will be opened, which asks to install the application. Click on the "INSTALL" button to install the application.

![](_page_4_Picture_10.jpeg)

2. DPDMIS Facility Online web Portal (<u>http://140.238.246.250/facOnline/index/index.aspx</u>) पर जाएँ

Drug Distribution & Management Information System DPDMIS (Tier-3) : Health Facility Main Store

"Health Facility Store" Mobile App, Android Mobile/Tablet हेतु <u>App डाउनलोड</u> करें। <u>डाउनलोड App Manual</u> <u>स्वास्थ्य केन्द्रों से दवा की मासिक मांग,प्राप्ति,एन.ओ.सी .वार्डों को वितरण तथा स्टॉक की ऑनलाइन प्रक्रिया हेतु Manual Download करें</u>

![](_page_5_Picture_0.jpeg)

![](_page_5_Picture_2.jpeg)

## Login

Step 2: स्वास्थ्य केंद्र की User id से Login करें | इस Mobile App में Registered Mobile No से भी Login किया जा सकता है |

![](_page_5_Picture_5.jpeg)

![](_page_6_Picture_0.jpeg)

![](_page_6_Picture_2.jpeg)

Step 3: Login करने के बाद Home Screen में स्वास्थ्य केंद्र और Login से संबंधित जानकारी प्रदर्शित होगी | इसके बाद Side Menu Bar = पर Click करें |

![](_page_6_Picture_4.jpeg)

![](_page_7_Picture_0.jpeg)

## Advantages

By using Mobile app state can achieve effective medicine supply chain management, which involves essential elements of a better medicine supply chain management system:

- **Patient Satisfaction:** Reliable access to necessary medications improves patient satisfaction, which is crucial for the reputation and success of health facilities.
- **Patient Safety:** Ensuring a steady and reliable supply of medicines helps prevent shortages and stock outs, which can have serious consequences for patient health. Adequate supply chain management reduces the risk of patients not receiving necessary medications.
- **Demand Forecasting:** Accurate prediction of medicine demand based on actual consumption data and epidemiological trends.
- **Inventory Management:** Efficiently tracking and controlling inventory levels to prevent overstocking or stock outs, reducing costs and ensuring the availability of medicines.
- **Indenting Mechanism**: Streamlining the process of Indenting of medicines, including Local procurement systems, to reduce errors and delays.
- **Distribution and Logistics**: Developing efficient distribution networks and logistics strategies to transport medicines from warehouse to healthcare facilities.
- **Reduced Risk of Expired Medications**: By managing inventory effectively, healthcare facilities can reduce the risk of medications expiring before use, which can be costly and wasteful.
